

FOR IMMEDIATE RELEASE

Woven Electronics Receives Lockheed Martin Outstanding Quality Award

Simpsonville, SC, January 3, 2007–Woven Electronics, LLC, a TSI Group company, was awarded with the *2007 JASSM Precision Award for Outstanding Quality* at the Lockheed Martin JASSM (joint air-to-surface standoff missile) General Managers conference in Orlando, FL.

The themes of the conference were quality, reliability and affordability, all of which are values that Woven takes seriously. E.J. Mondor, president of Woven Electronics, states, “JASSM is a profile program for us, we make customer satisfaction and quality our highest priorities, to receive this award is a testament to our dedication to the success of Lockheed Martin.”

E.J. was asked to speak at the conference in regards to several of the initiatives adopted by Woven Electronics contributing to the overall successful delivery of quality, reliable and affordable product to the JASSM production line in 2007. Woven has been supplying JASSM with mission critical cable assemblies for the past four years.

Woven Electronics (www.wovenelectronics.com), a TSI Group company, is the leading source for analog and digital custom-engineered, patented interconnect solutions including woven cable configurations, unique mechanical and electrical packaging, and precision fiber optic designs for mission-critical applications. Utilizing these skills sets enables Woven Electronics to safeguard the country’s borders, military installations and nuclear facilities with unwavering reliability.

TSI Group, Inc. (www.tsigroupinc.com) is a world-class supplier of high quality contract manufactured and custom engineered electronic assemblies and thermal management products, enclosures and interconnect solutions for military, commercial and security applications.
